01 PROFILE

Dynamic software developer with over 4 years of diverse experience in both internships and full-time roles, including impactful positions at Cognizant and Walmart. Proficient in JavaScript and skilled in crafting user-centric designs while ensuring robust backend functionality. Committed to enhancing application performance and driving innovative solutions in software development. Eager to leverage strong programming and troubleshooting abilities in a challenging new role. Passionate about fostering user engagement through effective UI/UX strategies.

02 EMPLOYMENT HISTORY

Aug 2024 — Nov 2024

Bangalore

Corporate Graduate Intern at Walmart Global Technologies

Worked as a Corporate Graduate Intern at Walmart Global Technologies, where engagement in various projects provides a comprehensive learning experience. The internship focuses on understanding the integration of technology in retail operations and involves collaboration with senior developers. This opportunity allows for the application of skills in software development while gaining insights into corporate practices.

- Worked with the seller risk team to design and develop robust solutions to meet seller requirements within the Walmart marketplace website.
- Implemented UI designs using HTML and CSS with React to display Inform Act widget within the account page of the Walmart Marketplace website.
- Gained practical knowledge in software troubleshooting and user experience design.
- Collaborated with cross-functional teams to explore innovative technologies.

Jul 2019 — Jul 2022

Bangalore

Software Developer at Cognizant Technology Solutions

As a Software Developer at Cognizant Technology Solutions, responsibilities encompassed designing and implementing software applications tailored to client needs. The role involved extensive collaboration with stakeholders to define project requirements and deliver effective solutions. This position provided the opportunity to hone skills in problem-solving and software troubleshooting while working on diverse projects.

- Implemented UI designs using HTML and CSS within Angular, React, Backbone, and Vue Frameworks.
- Integrated third-party tools and components into applications.
- Followed SDLC best practices within the Agile environment to produce rapid iterations for clients.

- Teamed on user-centric design strategy in transition of UX and business requirements into coded solutions

Jul 2018 — Feb 2019

Bangalore

Software Developer Intern at Step2Promote

In the role of Software Developer Intern at Step2Promote, significant exposure to the software development lifecycle was gained. Responsibilities included collaborating with the development team to create, test, and implement software solutions. This experience allowed for the application of various programming languages and tools, enhancing both technical and analytical skills. Key contributions included troubleshooting and refining existing software, leading to improved efficiency and user satisfaction.

- Assisted in the development of web applications that streamlined internal processes.
- Improved software functionality, resulting in a 20% increase in user engagement.
- Collaborated with cross-functional teams to gather requirements and provide technical support.
- Participated in code reviews, which fostered a culture of continuous improvement.
